

# Daily a Good Deed (DGD)

This movement was started on the first day of the year 2007, from that day without any break; the good deeds are performed everyday at various places by different departments as indicated in the calendar. It develops discipline and adherence to commitment of students. The staff representative of each department coordinates with students for success running of the program.

## **Objectives:**

- The service to poor is equal to God
- Daily a part of Good Deed is a part of our life which helps to improve the society
- The students and faculties do many awareness programs on various issues
- The main objects of DGD are to create an impact on health issues

### **Plan of Activities**

- To motivate all students to provide snacks, fruits and home appliances to the orphanages
- > To plant more trees to maintain greenery
- > Save nature and nurture with rain water and recycled water
- To plan conduct awareness programme like dengue fever, government plans, rain water harvesting sanitation, personal hygiene, road safely, chicken-pox etc.,
- > To provide nutrition food and ragi malt programme
- > To provide writing material to school students
- > To conduct games to school children
- > To clean the campus

### Activities

- ✓ Tree plantation, watering to the plant
- ✓ Awareness programs about Rain water harvesting sanitation, personal hygiene, Road safely, dengue, chicken -pox
- Providing nutrition food and ragi malt programme, writing materials to the school students, biscuits to the orphanages, egg donate to homage

✓ BMI calculation, paste the black sticker to the two wheelers head lights, cleaning the temples, schools and College campus

### **Contribution to Society and College**

- Conducting DGD in the College campus will help us to keep the campus very clean and tree plantation provides pure oxygen.
- When we conduct the good deeds in the society, the society will be developed in various aspects the uneducated people are brought into light
- The faculty members of SASC conduct many awareness programs like importance of wearing helmet, higher education, and blood donation, dangerous of using cell phones while driving. These programs will help the public to be aware of it.
- Notice on general health issues and awareness on ill effects of tobacco consumption, alcohol consumption, dangerous of swine flu, dengue, malaria, diphtheria will help the public to rescue themselves from these diseases.
