7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

- Bridge course is offered for all the I UG students for fifteen days at the commencement of the Academic year. A Special booklet is prepared and used. Students are motivated and encouraged to speak functionally in the day today activities.
- Value Education course is introduced for all the II UG students as a skill oriented paper. A booklet “Values for Life” is prescribed
- Selvamm Computational Research Group is formed to concentrate on Research and it is functioning well.
- “Lab to Land and Land to Lab” is one of the programmes, where all the 14 departments participate interestingly. This has been actualized through the dissemination of scientific temper and information to the Science teachers in the village schools.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

- Blood group identification is conducted every year for all the I UG and I PG Students. From this, students come to know their blood group.
- All the students are motivated to donate their blood. An awareness program is conducted for the students every year. Our students donate blood in case of accidents, Dengu fever and so on.
- Learning new words is one of the activities where the students are more thirsty to learn new words every day. Five new English words with English meaning are displayed in the notice board and students learn these words every day.
- Mentor system is followed in our college. 20 students for each staff are allotted and they get the guidance from the faculty member.
- Students are encouraged to visit and take part in three day camp in the Anglade Institute of Natural History located in Kodaikanal, run by the Jesuit Religious fathers, Headed by Madurai province.
- Differently abled students are treated with dignity. Every year on December 3rd we celebrate the World Disabled Day,
- Remedial classes are arranged for the slow learners.
- Maths classes are conducted for those students who have not learned maths at their higher secondary level. Classes are conducted on ten Saturdays.
- Yoga practical training is given to all the students for first fifteen days to all the I UG students in the beginning of the Academic year. Students will learn the Manavalakalai Yoga.
- Self help groups are trained in our college. Department of Chemistry trains them in making Washing Soaps.
- Hand book / Calendar is prepared and issued to all the faculty members and Students. It consists of rules and regulations of the college, day order, working days, CIA tests and Semester exams.

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

STRENGTHS

1. Selvamm Arts and Science College has introduced many innovations during the last four Years to make a positive impact on the functioning of the college. It concentrates on Education, Research, Sports and Extension Activities.
2. The college encourages and motivates the faculty members and students to plant trees. "Each one, plant one sapling" is the slogan of Nature club and 1000 saplings are planted every year.
3. Nature club takes constant efforts to increase the green cover of the campus every year.
4. Gas plant utilizes the wastes to produce bio-gas and is used to run the generators and for cooking purposes.
5. 4 NSS units of our college actively participate in outreach programmes in the villages around the college and conduct special camps every year.

WEAKNESSES:

1. Less number of students comes forward to initiate, participate and involve themselves in group, institutional and societal activities.
2. Need to start certificate and diploma courses in Environment protection.
3. College -Industry collaborations are to be improved.

OPPORTUNITIES:

1. Opportunities are provided to the students to participate in various sports and cultural activities to showcase their hidden talents and interact with students of other institutions.
2. The students of Biotechnology and Microbiology have opportunities to do interdisciplinary projects and research.
3. Students can update their knowledge by participating in workshops, seminars and conferences organized in our college and at district, state and national levels by various institutions and universities regarding Environment.
4. Creativity of our students is enhanced through experimental, demonstrative training and practices.
5. Curriculum can be modified according to the current needs and demands of the society by virtue of our autonomous status.
6. Isotopic studies can be carried out by Physics students using Gamma ray spectrometer and Geiger Muller counter, sponsored by BARC, Mumbai.

CHALLENGES:

1. Most of the students are first generation learners and they get little motivation from the parents.
2. Higher education is prevented by the poor economical background of the students.
3. To mobilize more funds from central government funding agencies.
4. Our UG and PG programmes are yet to meet the needs of industries and job markets.
5. To attain interdisciplinary programmes.
6. To increase the use of ICT skills among the staff.

8. Plans of institution for next year

- New certificate and Diploma courses to improve skills and employability of students.
- To apply for more fund to improve research activities.
- More MoU's with NGO's, Industrialist and Government agencies.

Best Practice –I
“Daily a Good Deed”

Objectives

The practice aims to do social service for the society by the management, faculty members and students. It exposes the student’s talent to the society by doing services, like making the college campus clean and green. This practice encourages and motivates the students to do a good deed every day. All the fourteen departments have to do it for a week continuously.

The Context

All the fourteen departments participate in the daily events. Every week one department has to do the good deed. Each department recites a devotional song to start the day in the morning and promulgate. A faculty member proclaims the good deed over the public address system which is connected to all the class rooms and all the students to hear it.

The Practice

Doing a good deed everyday takes place at the college campus and outside the campus too.

Besides at the college premises, sapling plantation, watering the saplings, cleaning the premises, providing Ragi malt and Butter milk for the faculty members and Students are being carried out during the break hours and at the evening time without disturbing the regular class hours. This practice takes a minimum of one hour to the maximum of three hours. The faculty members have led the group of students for the deeds. Ever since the programme has been introduced each and every individual gets atleast one chance. The students are encouraged and motivated to participate voluntarily.

Outside the campus faculty members and students will do many services as part of the Daily A Good Deed programme. Awareness creation is the major deed. Helmet awareness, stickering on the head lights, wearing seat belts, issuing pamphlets regarding Traffic rules, safety aids, AIDS and diseases are also important activities of the deed.

Cleaning the unused places in the village and planting saplings are also some of the activities of daily a good deed programme. Since college is located in a rural area and students have the rural background, these works are actively done with interest.

All these deeds would make the students understand clearly its importance and then they do it. So, it makes them learn and do the service wholeheartedly.

Evidence of Success

This program runs from the 1st of January 2007. Dr. S. Babu, Vice Chairman of Selvamm Arts and Science College inaugurated the programme. Ever since the commencement of this programme is voluntarily done by the Departments and students. Students get the self satisfaction from this service. This programme has got many appreciations from the society. Many people get benefitted by the awareness programmes, follow and wear the Helmets and Seat belts.

Problems encountered and resource required

Each department should prepare a week in advance, assign faculty members, students and know more information about the deeds. Sometimes class hours are disturbed. Students always expect the motivation and interest. More resources are required to expand the daily a good deed programme.

“Convergence between the college and rural community for sustainable social transformation through Extension Activity”

Objectives

The management of Selvamm Arts and Science College introduced an Extension department namely **Empowering Rural People**. It is to promote an ongoing engagement of the college with the fourteen adopted villages for the social transformation. It involves the faculty members and students in the service of the rural people. To empower the youth with knowledge and skills for improving the quality of life and to create literacy interest and awareness of the women’s emancipation are the objectives.

The Context

An overall social, economic and educational backwardness has given the college the motivational challenge to empower the people in terms of access, equity, inclusiveness and social justice. Empowering the rural people would make the faculty members and students concentrate on the society. Among the many rural villages, fourteen villages near this college are chosen. College focuses on doing the extension activity.

The Practice

Extension department has adopted fourteen villages for the fourteen departments. These villages are in the districts of Namakkal, Salem, Trichy and Karur. A separate department is formed and faculty members are guiding and leading the students. All the students have to involve themselves in this programme.

80 hours of work must be done in the rural area by the UG students from the second semester to fifth semester. 60 hours of work must be done in the rural area by the PG students during the second and third semesters. It carries three credits for UG and two Credits for PG programme.

This programme aims at developing the neighbourhood communities through Literacy, Health, Legal Rights, Environmental Awareness, Sanitation and Women Empowerment.

Each class is divided into five or six teams according to the class strength. Primary Education group will take tuition for the primary school students. Women self help group guidance will be given by the women empowerment group. Youth empowerment group will share the opportunities from the Bank and Government Sector. An awareness group is formed and it has to make the awareness camps like Legal rights, Medical Camp, orientation for the School teachers and students.

Environment group is very proactive in cleaning, protecting and increasing the green cover. Every month it has to plant at least ten to fifteen plants. Environment lectures, Seminars and camps are conducted in the college and in the chosen villages.

Evidence of Success

This programme got the special attraction from the adopted village people. A cordial relationship is maintained with the people and administrators. Students get satisfied by doing the social service. All the students complete their allotted hours and do more hours with eagerness, involvement and interest.

Problems encountered and resources required

Due to lack of Transport facility, students could not reach the rural villages in time. Students go with interest but people do not welcome them and do not cooperate sometimes. It makes the students a little lazy. For expansion of extension activities the institution looks for more resources to increase the areas and to increase the values of people.
